

# One Marimba... *marimba one*<sup>®</sup> MALLETS

## **Katarzyna Myćka Signature Mallet Series**

MAXIMUM SOUND IN ORCHESTRAL & ENSEMBLE SETTINGS

- Weighted mallets are wrapped very tightly with two strands of synthetic yarn.
- The combination of the synthetic yarn, tight wrap and heavy weight yields an immediate response from the keyboard that is required for ensemble and orchestra playing.
- The heavy mallet weight brings out the warmth of the marimba by physically activating the fundamental frequencies in the bars.

7 MALLETS IN VARYING HARDNESS

AVAILABLE WITH BOTH BIRCH AND RATTAN HANDLES

## **Ivana Bilic Signature Mallet Series**

- Designed to emphasize the singing characteristic of the marimba by relating each mallet sound to human vocal qualities.
- 5 wool/synthetic yarn mallets and 1 wool/wool yarn mallet (wool warms the sound, synthetic provides articulation).

A MID-WEIGHT SERIES WITH 6 GRADES OF HARDNESS  
AVAILABLE WITH BOTH BIRCH AND RATTAN HANDLES

## **Colin Currie Signature Mallet Series**

- A simple and straightforward mallet line, representing a focused, polished approach to sound.
- Lightweight series with flexibility in feel and touch to give access to the entire dynamic range of the keyboard.
- Mallets encourage spontaneity, as each can be used with great force or delicacy.

4 MALLETS,

ONE UNWRAPPED AND 3 WRAPPED

ALL AVAILABLE IN BOTH BIRCH AND RATTAN HANDLES

*As a player who uses a Burton-style grip, I have also come to use the inner mallets for my single line playing when holding four sticks. I enjoy the feel and flexibility of rattan for two mallet/single line work, but have a preference for the rigidity of birch mallets in the outer mallets.*

—Colin Currie

## **Double Helix Mallet Series**

- A mid-weight line developed to bring out the warmth of the fundamental throughout the range of the marimba.
- Double Helix are made with one synthetic yarn and one wool yarn wrapped with relaxed tension.
- This mallet evokes a warm deep tone from the keyboard.

6 MALLETS IN THIS SERIES ARE AVAILABLE  
WITH BIRCH OR RATTAN HANDLES
