

INTRODUCING

ONE VIBE™
by *marimba one™*

Experience the sound of the One Vibe™

Our full-size and voiced keyboard has amazing projection, warmth and resonance. We have brought the *marimba one™* level of sound quality and expertise to the One Vibe™.

Full-size keyboard is 100% evenly dampened

When using the damper bar, all keys from top to bottom are 100% evenly dampened. We build a patented adjustment into the damper bar, allowing you total control over how much sustain the bass bars have relative to the treble bars.

Easy to transport

The most rigid frame in the industry. Easy to assemble and super lightweight at 111 pounds (50 kg).

Magnetic Drive System : plug and play!

Just put the resonators into the frame and you're ready to play. No need to hook up belts or cables. Fans always stop in the open position.

Izzy™ height adjustment system

Our gas spring height adjustment system allows you to raise and lower the vibre smoothly and effortlessly. Our built-in tape measure insures your preferred keyboard height.
